Welcome to Epdic18

Attending the EPDIC18 Meeting in 2024 is sure to be a captivating experience!

The 18th European Powder Diffraction Conference, EPDIC18, is scheduled to take place in Padova from August 30th to September 2nd, 2024.

EPDIC

The European Powder Diffraction Conference (EPDIC) is the only European conference completely dedicated to all aspects of the analysis of polycrystalline materials using diffraction methods. Established in Munich in 1991, EPDICs have swiftly become key gatherings for researchers in the field, serving as ideal platforms for showcasing and disseminating new developments in powder diffraction instrumentation, analysis, and applications.

EPDIC conferences brings together experts from universities, research institutes and instrumentation companies to share their knowledge and discuss the current trends and challenges in powder diffraction.

The EPDIC in close collaboration with the Italian Association of Crystallography – AIC, invite you to Padova (Italy) on the occasion of the 18th European Powder Diffraction Conference, to participate in the activities of EPDIC18, to be held from 30 August to 02 September, 2024.

Welcome to ECM 34

YOUR EXPERIENCE ATTENDING THE ECM MEETING 2024 WILL BE FULLY FASCINATING!

Padova is one of the most charming towns in Italy and hosts a lively University that is among the oldest in Europe. The historical centre boasts a wealth of medieval, renaissance and modern architecture. From Giotto to Mantegna, from Donatello to Galileo Galilei, Padova has been host to the greatest artists and scientists of the ages, making it a temple of knowledge.

Visiting Padova means a full immersion in arts, history and culture! Moreover, it is in a central position to reach Venice, Verona and the Garda lake, the Dolomites and Adriatic Seaside.

Padova is also a conference-friendly city, as:

A medium-size which allows short transfers from one point to another

An accessible city with several airports in the surroundings

A destination with reasonable hotel rates

2024 shortly follows the celebration of the 800-year foundation of the University of Padova, and the new inclusion of the «Urbs picta» in the UNESCO Heritage List.

On behalf of the European Crystallographic Association (ECA) and of the Italian Association of
